

About KIHEAT

Kamal Institute of Higher Education and Advance Technology was set-up by Sankalpa Educational Welfare and Charitable Society (Regd.) in 2001 in order to prepare professionals in Management and Information Technology to meet the demand for quality technologists and management graduates in the 21st century. The Institute aims at producing quality professionals by utilizing the rich experience of the managing committee earned during the past 3 decades of managing educational institutions.

In pursuance of the educational policy of the Government of India of opening new institutions of school and higher education of improved standards, the institute got affiliated for B.Ed. course in 2009-10 and to BBA and BCA course in 2011-12 and B.Com(H) course in 2013-14 to the prestigious Guru Gobind Singh Indraprastha University, Delhi and B.Ed. Programme is also approved by NCTE Govt. of India. The institute lays greater emphasis on exposure of its students to the environment by providing opportunities to interact with various industries and educational institutions.

About QTanalytics™

QTanalytics™ is a statistical consulting, training and education provider with a bright and experienced team of professionals, who consistently strive to achieve a common goal of service excellence. At QTanalytics we pride ourselves for providing innovative solutions to support our clients' looking for statistical support in their research. Our team have been helping the clients (India & Overseas) in finding statistical data solutions, both general as well as specialist research services for data processing, reporting & advance analytics with the application of **suited econometric models**.

QTanalytics caters to the need of institutions, students and professionals industries for training in Quantitative analysis with computer software skills on topics such as **Advanced Excel, Dissertation Essentials: From designing research proposal to setting hypothesis and data analysis and modeling with appropriate procedure on R, SPSS, AMOS, STATA, EVIEWS and SAS software.**

Objectives of the Programme

Research is nothing but search for knowledge or any systematic investigation to establish facts on a related subject. It is about searching systematically for solutions to problems. Statistical device not only provides a way of summarizing the data into quicker and manageable information but also helps the researcher to make decisions about whether relationships between two or more variables are real ones. To address challenges and opportunities in the field of research new software products SPSS & EVIEWS has enabled academicians and researchers to obtain valuable information from the data. Basic knowledge on these software is vital for all users before they proceed to survey and data analysis.

This **five days** Faculty Development Programme (FDP) is aimed at honing the teaching and research skills of faculty, researchers and trainers. It will inculcate confidence in the usage of data analysis tools. Training on Statistical Packages SPSS would greatly enhance research and publication skills of the faculty, Research Scholars and others.
